Directory of Montana's forest industry c.

3 0864 00050993 8

## INTRODUCTION

The 1987 Directory of Montana's Forest Products Industry Contractors is published for individuals and companies seeking timber harvesting, loading and hauling services and lists the names, addresses, and phone numbers of 148 logging companies. In addition it also includes each company's harvesting methods and operating size.

Because of the great number of companies and individuals involved in the logging industry in Montana and the industry's constant change, this directory may inadvertently omit some individuals and companies who desire to be listed. The Department of State Lands would appreciate hearing from you.

Our thanks to the Montana Logging Association in helping us update the directory.
